### Application and

#### Covenant

# Harvest 365 Food Plot Covenant

We ask those churches that wish to become an official Harvest 365 Foot Plot to agree to the following covenant between them and Harvest 365 and supply the information on the second page.

### Church Food Plot Covenant:

- 1- To conduct a minimum of three events in a calendar year in an attempt to reach men with the Gospel.
- 2- That the nature and type of events will be totally up to the individual Church Food Plot and when it is conducted. We understand what works in one Food Plot may not necessarily work at another.
- 3- That all events will be conducted with the highest degree of integrity because we ultimately represent Christ to these sportsmen.
- 4- That all game laws, and any other law, be given the highest regard and nothing be done that could be considered unlawful, unethical or immoral when conducting the events.

### Harvest 365 Covenant:

- 1- We, as Harvest 365, agree to give support for events as much as possible depending on a multitude of factors. Each Church is ultimately responsible for their events planning, promoting and conducting of the events. We are available for local onsite consultation on a cost basis when schedules permit.
- 2- We are available by email and phone for counsel and ideas as much as our schedules will allow. Original design work promotional material such as flyers, postcards, JPG's for church screens are available on an individual cost basis. We will supply as many as possible on the site for free as they are developed by us and others that provide them for use by other Food Plots.
- 3- For the one-time donation of \$100.00 plus shipping we will provide each Food Plot with a personalized 3' x 6' Harvest365.net banner to display at your events.
- 4- We will post Food Plot events on the official Harvest 365 website ([www.harvest365.net](http://www.harvest365.net)) when we are aware of the events. We will place as many upcoming events as we possibly can on the website. This will allow the local Food Plots to use [harvest365.net](http://harvest365.net) to promote their events. The material used on the website will be solely at the discretion of Harvest365.
- 5- After your event we will place pictures, supplied by you, on the [harvest365.net](http://harvest365.net) website when possible. This will allow you to use it to promote your local Food Plot.
